b) limits in any substantial way or is inconsistent with the Bidding Document, KHEL’s rights or the Bidder’s obligations under the proposed Contract; or

c) if rectified would affect unfairly the competitive position of other Bidders presenting responsive Bids;

d) is incomplete or does not include all the scope of Work covered in the technical specifications.

**ITB 32.4**

If a Bid is not substantially responsive to the requirements of the Bidding Document, it shall be rejected by KHEL and the same may not subsequently be made responsive by correction of the material deviation, reservation, conditionality or omission.

**ITB 32.5**

KHEL may waive any minor infirmity, non-conformity or irregularity in a Bid that does not constitute a material deviation, reservation or omission, whether or not identified by the Bidder in its Bid and that does not prejudice or affect the relative ranking of any Bidder, as a result of the technical and commercial evaluation pursuant to ITB 33 and ITB 35. KHEL may request that the Bidder submit the necessary information or documentation, within a reasonable period of time, to rectify non-material deviations or omissions in the Bid related to documentation requirements. Such omission shall not be related to any aspect of the price of the Bid. Failure of the Bidder to comply with the request may result in the rejection of the Bid.
**ITB 33**

**Technical Evaluation**

KHEL will carry out a detailed technical evaluation of the Bids previously determined to be substantially responsive as per ITB 32 in order to determine whether the technical aspects are in accordance with the requirements set forth in the BDS. In order to reach such a determination, KHEL will examine and compare the technical aspects of the bids on the basis of the information supplied by the Bidders, taking into account the following factors:

a) Overall completeness and compliance with the Technical Specifications and Drawings as specified in Section VI, Technical Specification; suitability of the Works/services offered in relation to the environmental and climatic conditions prevailing at the Site. The Bid that does not meet minimum acceptable standards of completeness, consistency and detail will be rejected for non-responsiveness;

b) Where alternative Bid have been allowed in accordance with ITB 16, and offered by the Bidder, KHEL will make a similar evaluation of the alternatives. Where alternatives have not been allowed but have been offered, they shall be ignored.

**ITB 33.2**

Furthermore, the bids shall be evaluated using the information supplied by the Bidders in the Forms 7A to 7G to confirm that the following minimum requirements are met by each Bidder. If so required by the BDS, to qualify for award of the Contract, each Bidder must meet the following requirements:

(a) A minimum average annual turnover of the value specified in the BDS for the last 5 years from Construction business should be added based on the audited/certified by the Chartered Accountancy/tax return figures enclosed;

**Correction of Arithmetical Errors in Price Bid**

**ITB 34.1**

Arithmetical errors will be corrected at the time of evaluation of Price Bid and the corrected figure will be considered for the purpose of evaluated Bid price. The corrections in the Bid price shall be done as per the provisions of this clause and shall be binding on the Bidder. If the Bidder does not accept the correction of errors as per the provisions of this clause, the Bid will be rejected and the Bid security will be forfeited.

**ITB 34.2**

If there is a discrepancy between the product of unit price and quantity for any item, and the total price for such item, the product of unit price and quantity will
prevail and the total price shall be corrected unless in the opinion of KHEL, there is an obviously gross misplacement of decimal point in the unit rate, in which case, the total of line item as quoted will govern and unit rate will be corrected accordingly.

**ITB 34.3**

If there is discrepancy between summation of subtotals and total price, the summation of subtotal price shall prevail, and the total price shall be corrected.

**ITB 34.4**

If there is a discrepancy between words and figure, wherever the Bid document requires the figures to be written in both words and figures, the amount in word will prevail unless the amount expressed in figures has an arithmetic error.

**ITB 34.5**

In case the Bidder has not filled up unit price against any item, KHEL shall treat the price of unfilled items as zero for the purpose of evaluation & comparison and award (if such Bidder emerges as the lowest evaluated Bidder), with the assumption that the cost have been absorbed elsewhere in the Price Bid.

**ITB 34.6**

In case prices for some items are given by a Bidder as lump sum where unit rates are required, KHEL reserves the right to arrive at unit rate on the basis of dividing the entered lump sum amount by the specified quantity.

**ITB 35 Evaluation and Comparison of Bids**

**ITB 35.1**

KHEL shall evaluate each Bid, which has been determined, to be substantially responsive in accordance with ITB 32. The evaluation of bids shall be done based on the factors, methodologies and criteria defined in this ITB 35.

**ITB 35.2**

To evaluate and compare Bids, KHEL shall consider the following:

a) the final Bid Price, as quoted in accordance with ITB 19 in the priced Bill of Quantities;

b) price adjustment for correction of arithmetic errors in accordance with ITB 34;

c) price adjustment due to discounts offered in accordance with ITB 19.4.

**ITB 35.3**

KHEL’s evaluation of a bid shall exclude and not take into account any allowance for price adjustment during the period of execution of the Contract, if provided in the Bid.

**ITB 35.4**

The evaluation shall be based on the evaluated cost of fulfilling the Contract in compliance with all commercial, contractual and technical obligations under the Bidding Document.

**ITB 35.5**

The total comparison price shall be calculated based on ITB 35.2. KHEL shall compare the total comparison price of all substantially responsive Bids of qualified Bidders to determine the lowest evaluated Bid.

**ITB 35.6**

If the Bid price of the lowest evaluated Bid appears abnormally low and/or seriously unbalanced, KHEL may require the Bidder to produce written explanations of, justifications and detailed price analyses for any or all items of the Bill of Quantities to demonstrate the internal consistency of those prices with the construction methods and schedule proposed. Abnormally low Bid may or may not be accepted. If KHEL decides to accept the abnormally low Bid after considering the above, the Bidder shall be required to provide additional differential security equivalent to the
difference between the prices offered by the lowest evaluated Bid and the average price quoted by all the other Bidders, and in case of single response, the additional security shall be for the difference between the evaluated Bid price and the estimated cost as may be determined by KHEL to protect KHEL against any financial loss in the event of default of the successful Bidder under the Contract.

ITB 35.7 The Bid capacity of the prospective Bidder shall be assessed at the Technical Bid Evaluation stage only. The available Bid capacity shall be calculated as follows:

Assessed available Bid capacity= \((A*N^2 - B)\), where,

A = Maximum total value of all civil works executed in any one year out of the last five (5) years (updated to the current price level by adding 5% per year)

N = No. of years prescribed for completion of current Contract (specify duration in years. N may be considered as one for contract duration less than one year)

B = Value of existing commitments and on-going works to be completed in next “N” Years.

ITB 35.8 The assessed available Bid Capacity should be equal to or more than 80% of the estimated cost.

ITB 35.9 The basic consideration and the essence of the Contract shall be the strict adherence to the time schedule specified in the SCC after the Effective Date of the Contract as incorporated in the Contract Agreement for completion of Works. Bidders are required to base their prices on the time schedule given in Section VI, Technical Specifications. No credit will be given for earlier completion for the purpose of evaluation.

ITB 35.10 KHEL reserves the right to accept or reject any variation, deviation or alternative offer. Variations, deviations and alternative offers and other factors which are in excess of the requirements of the Bidding Document or otherwise result in unsolicited benefits for KHEL shall not be taken into account in Bid evaluation.

ITB 36 KHEL’s Right to Accept Any Bid, and to reject any or All Bids

ITB 36.1 KHEL reserves the right to accept or reject any Bid, and to annul the bidding process and reject all Bids at any time prior to Contract award, without thereby incurring any liability to Bidders or any obligation to inform the affected Bidders of the grounds for such action of KHEL.

F. Award of Contract

ITB 37 Award Criteria

ITB 37.1 Subject to ITB 36, KHEL will award the Contract to the successful Bidder whose Bid has been determined to be substantially responsive and to be the lowest evaluated Bid, further provided that the Bidder is determined to be (a) eligible in accordance with the provisions of ITB 5, and (b) qualified in accordance with the provisions of ITB 35.
Letter of Award

Prior to expiry of the period of Bid validity, KHEL will notify the successful Bidder, by a Letter of Award (LoA) as per Form: 10 of Section VIIB or in the form of Letter of Intent (LoI), in writing, by registered letter, email, or by fax, that it’s Bid has been accepted indicating the award price.

Until a formal Contract is prepared and executed, the Letter of Award shall constitute a binding Contract between the successful Bidder and KHEL.

Upon the successful Bidder’s furnishing of the performance security pursuant to ITB 40 and signing of Contract, KHEL will promptly notify each unsuccessful Bidder and will return its Bid Security.

Signing of Contract Agreement

Within fifteen (15) days of issue of the Letter of award the Contractor shall report to KHEL office for signing of the Contract Agreement as per Form 11 of Section VIIB with Performance Security as mentioned in LoA.

Performance Security

Prior to signing of the Contract, the successful Bidder shall submit the performance security equal to ten percent (10%) of the Contract Price with initial validity upto thirty (30) days beyond the scheduled completion period of Contract in accordance with GCC 20.3.1. KHEL reserves the right to verify independently the genuineness of the Performance security from the issuing bank or a correspondent with initial validity of such issuing bank in the Kingdom of Bhutan. However, in case of delay in completion period, the validity of the Contract performance security shall be extended by the Contractor for such period of delay.

The performance security shall be submitted as an unconditional irrevocable bank guarantee issued by any Scheduled Bank in Bhutan and acceptable to KHEL in the Form 12 of section VIIB.

Failure of the successful Bidder to submit the above-mentioned Performance Security or sign the Contract shall constitute sufficient grounds for the annulment of the award and forfeiture of the Bid security. in connection with the contract, the Contractor shall give notice to KHEL,
describing the event or circumstances giving rise to the claim. The notice shall be
given as soon as practicable, and not later than twenty eight (28) days after the
Contractor became aware, or should have become aware, of the event or
circumstance.

GCC 9.1.2 If the Contractor fails to give notice of a claim within such period of twenty eight
(28) days, the Time for Completion shall not be extended, the Contractor shall not
be entitled to additional payment, and KHEL shall be discharged from all liability in
connection with the claim. Otherwise, the following provisions of this Sub-Clause
shall apply.

GCC 9.1.3 The Contractor shall also submit any other notices which are required by the
Contract, and supporting particulars for the claim, as relevant to such event or
Circumstances.

GCC 9.1.4 The Contractor shall keep such contemporary records as may be necessary to
substantiate any claim, either on the Site or at another location acceptable to the
Project Manager/EIC. Without admitting KHEL’s liability, the Project Manager/EIC
may, after receiving any notice under this sub-clause, monitor the record-keeping
and/or instruct the Contractor to keep further contemporary records. The Contractor shall permit the Project Manager/EIC to inspect all these records, and shall (if instructed) submit copies to the Project Manager/EIC.

GCC 9.1.5 Within twenty-eight (28) days after the Contractor became aware (or should have become aware) of the event or circumstances giving rise to the claim, or within such other period as may be proposed by the Contractor and approved by the Project Manager/EIC, the Contractor shall send to the Project Manager/EIC a fully detailed claim which includes full supporting particulars of the basis of the claim for the extension of time and/or additional payment claimed. If the event or circumstance giving rise to the claim has a continuing effect:

a. this fully detailed claim shall be considered as interim;
b. the Contractor shall send further interim claims at monthly intervals, giving the accumulated delay and/or amount claimed, and such further particulars as the Project Manager/EIC may reasonably require; and

c. the Contractor shall send a final claim thirty (30) days after the end of the effects resulting from the event or circumstances, or within such other period as may be proposed by the Contractor and approved by the Project Manager/EIC.

The Project Manager/EIC may also request any necessary further particulars, but shall nevertheless give a response on the principals of the claim within such time.

GCC 9.1.7 Each payment certificate shall include such amounts for any claim as have been reasonably substantiated as due under the relevant provision of the Contract. GCC 9.1.9 The requirements of this sub-clause are in addition to those of any other sub-clause, which may apply to a claim. If the Contractor fails to comply with this or any other sub-clause in relation to any claim, any extension of time and/or additional payment shall take account of the extent (if any) to which the failure has prevented or prejudiced proper investigation of the claim, unless the claim is excluded under the second paragraph of this sub-clause.

GCC 32.4 Issuance of such certificates shall not relieve the Contractor of any of his obligations which otherwise were to be complied with under the terms and conditions of the Contract.

GCC 32.5 Notwithstanding the above mentioned provisions, the issuance of TOC shall not be held up for delay in completion of minor outstanding works and rectification of defects that do not affect the use of the Works for their intended purpose. In such a case the Contractor shall however be required to give an undertaking that in case he fails to complete/rectify within a mutually agreed period, KHEL shall be at liberty to complete/rectify works at his risk and cost, and deduct an amount as may be considered appropriate by KHEL applicable market rate of interest.

The aggregate amount of such liquidated damages shall in no event exceed the amount specified as “Maximum” in the SCC. Once the “Maximum” is reached, KHEL may consider termination of the Contract, pursuant to GCC 45.2.1h. KHEL may without prejudice to other remedies under the Contract deduct the amount of the liquidated damages from any monies due or becoming due to the Contractor or forfeit the Contract Performance Security.

Such payment shall completely satisfy the Contractor’s obligation to attain completion of Works or the relevant part thereof within the Time for Completion or any extension thereof under GCC 40. However, the payment of liquidated damages shall not in any way relieve the Contractor from any of its obligations to
complete the Works or from any other duties, obligations and liabilities of the Contractor under the Contract.

GCC 33.3 No bonus will be given for earlier completion of Works or part thereof.

GCC 33.4 In case the Works as a whole is completed by the Contractor within the stipulated Time for Completion, the interim liquidated damages imposed for delays in not achieving the specified interim contract milestones will be refunded to the Contractor after issuance of the completion certificate.

GCC 33.5 KHEL, if not satisfied that the works can be completed by the Contractor within specified Time for Completion, and in the event of failure on the part of the Contractor to complete Works within further extension of time allowed as aforesaid, shall be entitled, without prejudice to any other right, or remedy available in that behalf, to terminate the Contract.

GCC 33.6 In the event of such termination of the Contract as described above KHEL shall be entitled to recover liquidated damages up to ten percent (10%) of the Contract Price. The Contract Performance Security shall be adjusted towards liquidated damages. The balance work under the Contract shall be completed in any other manner at the risk and cost of the Contractor.

GCC 34 Defect Liability

GCC 34.1 The Defect Liability Period shall be as specified in the SCC and shall commence from the date the Works are taken over by KHEL. Where any part of the Works is taken over separately, the Defects Liability Period for that part shall commence on the date it was taken over.

GCC 34.2 If during the Defect Liability Period any defect is found in the construction, materials and workmanship of the Works executed by the Contractor, the Contractor shall promptly, in consultation and agreement with KHEL regarding appropriate remedying of the defects, and at its cost, repair, replace or otherwise make good such defect as well as any damage to the Works caused by such defect.

GCC 34.3 If the Contractor fails to commence the work necessary to remedy such defect or any damage to the Works caused by such defect within fifteen (15) days of the intimation of the defect, and complete the remedying of such defect within the time specified by KHEL, KHEL reserves the right to get such work done in a manner as mentioned hereunder:

a. carry out the work itself or by others, in a reasonable manner and at the Contractor’s cost but the Contractor shall have no responsibility for the work; and the Contractor shall pay to KHEL the costs including the applicable market rate of interest reasonably incurred by KHEL in remediying the defect or damage;

b. require the Engineer In-Charge to agree or determine a reasonable reduction in the Contract price; or

c. if the defect or damage deprives KHEL of substantially the whole benefit of the Works, KHEL may terminate the Contract as a whole, or in respect of such major part, which cannot be put to the intended use. Without prejudice to any other rights, under the Contract or otherwise, KHEL shall
then be entitled to recover all sums paid for the Works or for such part (as the case may be), plus financing costs along with applicable market rate of interest and the cost of dismantling the same, clearing the Site and returning plant and materials to the Contractor.

GCC 34.4 If the Works or any part thereof cannot be used by reason of such defect and/or making good of such defect, the Defect Liability Period of the Works or such part, as the case may be, shall be extended by a period equal to the period during which the Works or such part cannot be used by KHEL because of any of the aforesaid reasons.

GCC 35 Limitations of Liability

GCC 35.1 Neither Party shall be liable to the other Party for loss of use of any Works, loss of profit, loss of any contract or for any indirect or consequential loss or damage, which may be suffered by the other Party in connection with the Contract, other than under GCC 23.

GCC 35.2 The aggregate liability of the Contractor to KHEL, whether under the Contract, in tort or otherwise, shall not exceed the total Contract Price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment, or to any obligation of the Contractor to indemnify KHEL with respect to patent infringement.

GCC 35.3 In all cases the Party claiming a breach of Contract or a right to be indemnified in accordance with the Contract shall be obliged to take all reasonable measures to mitigate the loss or damage.

GCC 35.4 The limitation of liability shall not apply in any case of fraud, deliberate default or reckless misconduct by the defaulting Party.

G. Risk Distribution

GCC 36 Protection of Works

The Contractor shall have total responsibility for protecting the Works till it is finally taken over by KHEL. No claim will be entertained by KHEL for any damage or loss to the Works and the Contractor shall be responsible for the complete restoration of the damaged works/equipment to its original condition to comply with the specification and drawings. Should any such damage to the Works occur because of other party not under Contractor’s supervision or control, the Contractor shall settle his claim directly with the party concerned, and the Contractor shall proceed to repair the work immediately and no cause thereof will be assigned pending resolution of dispute.

The Contractor shall also take the total responsibility of replacing or compensating for the damage or loss of properties belonging to other parties and local communities or individual house hold during the execution of work. Properties such as Neys (if any), water supply lines, irrigation channels or cultivated fields shall be fully protected and in case the same is not protected, the Contractor shall take
the full responsibility to replace or compensate for the same as per the joint assessment at the full risk and cost of the Contractor.

GCC 37  Insurance

GCC 37.1 The Contractor shall provide Comprehensive All Risk (CAR) Insurance, in the joint names of KHEL and the Contractor, insurance cover from the Start Date to the end of the Defects Liability Period from locally available eligible source, in the amounts and deductibles stated in the SCC hereunder for the following events which are due to the Contractor’s risks:

a) loss of or damage to the Works, Plant and Materials to be built into the works.

b) Third party insurance. The Contractor shall insure against his liability for any material or physical damage, loss or injury which may occur to any property, including that of KHEL, or to any person, including any employee of KHEL, by or arising out of the execution of the Works or in the carrying out of the Contract. Such insurance shall be effected with an insurer and in terms approved by KHEL, which approval shall not be unreasonably withheld, and for an amount of Nu. 0.5 (one half) million for any one loss on reinstatement basis but in total not exceeding Nu. 2 (two) million and if this ceiling is touched, the Contractor shall take a policy for the Third Party Insurance for an amount to be decided by the Engineer In-Charge and the premium for such an additional insurance policy will be reimbursed by KHEL to the Contractor as per actual.

GCC 37.2 Policies and certificates for insurance shall be delivered by the Contractor to the Engineer In-Charge for the Engineer In-Charge’s approval before the Start Date. All such insurance shall provide for compensation to be payable in the types and proportions of currencies required to rectify the loss or damage incurred.

GCC 37.3 The Contractor shall be responsible for taking out insurance cover for its Employees including Labourers, Constructional Plant, equipment and other things brought on to the site by him.

GCC 37.4 Insurance against Accident, etc. to Workmen for Accident or Injury to Workmen. The Contractor shall also be responsible for insuring against such liability and shall continue such insurance during the whole of the time that any persons are employed by him on the Works and shall, when required, produce to the Engineer In-Charge such policy of insurance and the receipt for payment of the current premium. Provided always that, in respect of any persons employed by any subcontractor, the Contractor’s obligation to insure as aforesaid under this sub-clause shall be satisfied if the sub-contractor shall have insured against the liability in respect of such persons in such manner that KHEL is indemnified under the policy, but the Contractor shall require such sub-contractor to produce to the Engineer In-Charge, when required, such policy of insurance and the receipt for the payment of the current premium.

GCC 37.5 If the Contractor does not provide any of the policies and certificates required, KHEL may affect the insurance which the Contractor should have provided and recover the premiums which KHEL has paid from payments otherwise due to the
Contractor or, if no payment is due, the payment of the premiums shall be a debt due from the Contractor to KHEL on the applicable market rate of interest.

GCC 37.6 Alterations to the terms of insurance shall not be made without the approval of the Engineer In-Charge.

GCC 37.7 Both parties shall comply with any conditions of the insurance policies.

GCC 37.8 Insurance Policy shall be as per Policies available with the local Insurance Companies.

GCC 38 Change in Laws and Regulations

GCC 38.1 If, after the last date of Bid submission, any law, regulation, ordinance, order or by-law having the force of law is enacted, promulgated, abrogated or changed in the Kingdom of Bhutan (which shall be deemed to include any change in interpretation or application by the competent authorities) that subsequently affects the costs and expenses of the Contractor and/or the Time for Completion, the Contract Price shall be correspondingly increased or decreased, and/or the Time for Completion shall be reasonably adjusted to the extent that the Contractor has thereby been affected in the performance of any of its obligations under the Contract.

GCC 39 Force Majeure

GCC 39.1 “Force Majeure” shall mean any event or circumstance beyond the control of KHEL or of the Contractor, as the case may be, and which is unavoidable notwithstanding the reasonable care of the Party affected and which substantially affect the performance of the Contract and shall include, without limitation the following:

a. war, hostilities or warlike operations (whether a state of war be declared or not), invasion, act of foreign enemy and civil war;

b. rebellion, revolution, insurrection, mutiny, usurpation of civil or military government, conspiracy, riot, civil commotion and terrorist acts;

c. confiscation, nationalization, mobilization, commandeering or requisition by or under the order of any government or de jure or de facto authority or ruler or any other act or failure to act of any government authority;

d. earthquake, landslide, volcanic activity, fire, flood or inundation, tidal wave, typhoon or cyclone, hurricane, storm, lightning, or other inclement weather condition, nuclear and pressure waves or other natural or physical disaster;

GCC 39.2 If either Party is prevented, hindered or delayed from or in performing any of its obligations under the Contract by an event of Force Majeure, then it shall notify the other in writing of the occurrence of such event and the circumstances thereof within fourteen (14) days after the occurrence of such event.

GCC 39.3 The Party shall, having given notice, be excused performance of such obligations for so long as such Force Majeure prevents it from performing them. The Time for Completion shall be extended in accordance with GCC 42.

GCC 39.4 The Party or Parties affected by the event of Force Majeure shall at all times use reasonable efforts to mitigate the effect thereof upon its or their performance of
the Contract and to fulfil its or their obligations under the Contract so far as reasonably practicable.

GCC 39.5  Delay or non-performance by either Party hereto caused by the occurrence of any event of Force Majeure shall not
   a. constitute a default or breach of the Contract
   b. give rise to any claim for damages or additional cost or expense occasioned thereby

if and to the extent that such delay or non-performance is caused by the occurrence of an event of Force Majeure occurring after the Contract becomes effective.

GCC 39.6  If the performance of the Contract is substantially prevented, hindered or delayed for a single period of more than sixty (60) days or an aggregate period of more than one hundred and twenty (120) days on account of one or more events of Force Majeure during the currency of the Contract, the Parties will attempt to develop a mutually satisfactory solution, failing which the dispute shall be resolved in accordance with GCC 10.2.

GCC 39.7  Notwithstanding GCC 39.5, Force Majeure shall not apply to any obligation of KHEL to make payments to the Contractor herein.

GCC 39.8  Notwithstanding any other provision of this clause, if any event or circumstance outside the control of the Parties (including, but not limited to, Force Majeure) arises which makes it impossible or unlawful for either or both Parties to fulfil its or their contractual obligations or which, under the law governing the Contract, entitles the Parties to be released from further performance of the Contract, then upon notice by either party to the other Party of such event or circumstance:
   a. the Parties shall be discharged from further performance, without prejudice to the rights of either Party in respect of any previous breach of the Contract, and
   b. the sum payable by KHEL to the Contractor shall be the same as would have been payable under GCC 45.1.3 if the Contractor had been terminated under GCC 45.1.

GCC 39.9  Loss to any Party due to occurrence of Force Majeure event shall be borne by the respective Party. However the reconstruction of the damaged Works shall be executed by the Contractor upon receiving the instructions from KHEL. The Contractor shall be paid for this work by KHEL at contract rates with suitable extension of Time for Completion. Provided further that cost of redoing of damaged Works due to Force Majeure events insurable as on Effective Date of Contract shall not be payable to the Contractor by KHEL.
H. Change in Contract Elements

GCC 40 Variations
GCC 40.1 The Engineer In-Charge shall order any variation of the form, quality or quantity of the Works or any part thereof that may, in his opinion, be necessary. Each variation may include, but is not limited to, any of the following:
  (a) increase or decrease in the quantity of any work included in the Contract,
  (b) omission or insertion of any item of work,
  (c) change in the character or quality or kind of any such work,
  (d) change in the levels, lines, position and dimensions of any part of the works,
  (e) additional work of any kind, or
  (f) change in any specified sequence or timing of construction activities.
GCC 40.2 The Engineer In-Charge shall make any such variation by issuing written instructions to the Contractor and ensure that such variations are duly noted in the Site Order Register. A variation made shall not, in any way, vitiate or invalidate the Contract, but the effect, if any, of all such variations shall be valued in accordance with GCC 41.
GCC 40.3 The Contractor shall execute and be bound by each Variation, unless the Contractor promptly gives notice to the Engineer In-Charge stating (with supporting particulars) that (i) the Contractor cannot readily obtain the Goods required for the Variation, or (ii) such Variation triggers a substantial change in the sequence of the progress of the Works. Upon receiving this notice, the Engineer In-Charge shall cancel, confirm or vary the instruction.
GCC 40.4 Under no circumstances, the contractor shall suspend the work on account of non-settlement of rates of additional items.
GCC 40.5 All Variations shall be included in updated Programs produced by the Contractor.
GCC 40.6 The Contractor shall not be entitled to additional payment for costs that could have been avoided by giving early warning.

GCC 41 Payments for Variations
GCC 41.1 Upon certified completion of the whole works, if reduction or increase in the total value of the work is found to be within 20% of initial contract price, then there shall be no change in the contract rates for individual items of work specified in the bill of quantities irrespective of the quantum of variation in individual items.
GCC 41.2 However, if reduction or increase is found to be more than 20% of initial contract price, the increase in payment for minus variation or decrease in payment for plus variation shall be specified based on slabs of variation in the contract value as specified below:

While working out the value of Works for the purpose of variation, the extra/substituted item for which new rates have been paid (but include similar items, rate of which has been worked out from the BOQ) and payment towards price adjustment and the adjustment towards statutory variations shall not be considered.

Illustration

a. In case of variation in value of Works by (plus) +60 percent, the payment for (60-20) percent i.e. 40 percent of value of Works shall be decreased by 4% (four percent). The reduction in Contract rates shall commence as soon as the value of Works executed reaches 120% of Contract Price.

b. In case of variation in value of Works by (minus) – 55 percent, the payment for (55-20) percent i.e. 35 percent of value of Works shall be increased by 8% (eight percent).

No variation limit for any individual BOQ item has been specified in these GCC except for the payment due to the Contractor as detailed above. No claim for revision of rate(s) for any individual BOQ item shall be admissible irrespective of the extent to which the ordered quantity may get revised (+) or (-) during the actual execution of the Works.

Within 14 days of the date of instruction for executing varied Works and before the commencement of such Works, notice shall be given either (a) by the Contractor to the Employer of his intention to claim extra payment or a varied rate or price, or (b) by the Engineer In-Charge to the Contractor of the intention to vary a rate or price.

The valuation of Variation shall be carried out in the following sequence:

a. The rates already provided in the Bill of Quantities, shall apply in respect of the same item(s) of work to be executed due to variation.

b. In case of items for which rates are not available in the Bill of Quantities, the rates of such items as far as practicable shall be derived from the quoted rates of analogous/similar item(s) in the Bill of Quantities after submission of details by the Contractor. The decision to select analogous/similar item(s) shall be taken by the Engineer In-Charge and the same shall be conclusive and binding on the Contractor.

c. In the cases, where analogous/similar items are also not available in the Bill of Quantities, such items shall be termed as extra items. The Contractor, within
14 days (or as agreed by the Engineer In-Charge) from the receipt of order to execute such items, shall submit rate analysis to the Engineer In-Charge supported by documentary evidence of basic rates adopted therein, notwithstanding the fact that the rates for such items exist in the Contract; having regard to the cost of materials, actual wages of labour and ownership & operational cost of Construction Equipment required as per standard norms or if standard norms are not specified/available then on the basis of labour/materials/Construction Equipment actually engaged for the particular work.

d. Over and above the cost of labour, materials arranged by the Contractor and ownership & operational cost of Construction Equipment, an element of 20% shall be allowed to cover the Contractor’s overheads, profits, and supervision charges.

e. The Employer shall examine the rate analysis submitted by the Contractor and fix the rates after considering the same.

GCC 41.6 If there is delay in the Employer and the Contractor coming to an agreement on the rate of varied Works including extra items and substitute items, provisional rates @ 75% of the rates as determined by the Employer shall be payable as a provisional payment till such time as the rates are finally determined.

GCC 41.7 Under no circumstances, the Contractor shall at any stage suspend work on account of non-settlement of rates of such item(s).

GCC 42 Extension of Time for Completion

GCC 42.1 The Time(s) for Completion specified in the SCC shall be extended by KHEL, if the Contractor is delayed or impeded in the performance of any of its obligations under the Contract by reason of any of the following:

a. any Change in the Works as provided in GCC 40.1, or
b. any occurrence of Force Majeure as provided in GCC.39, or
c. any suspension order given by KHEL under GCC.44 thereof or reduction in the rate of progress pursuant to GCC 44.4 or
d. any changes in laws and regulations as provided in GCC 38 or
e. any act of omission on the part of KHEL or its authorized representative to the extent such omission has caused delay in the Contractor's performance of his work.

f. any act, omission or delay on the part of any other contractors employed by KHEL for executing work not forming part of this Contract, or
g. any other default or breach of Contract by KHEL.

The time extension shall be by such period as shall be fair and reasonable in all the circumstances and as shall fairly reflect the delay or impediment sustained by the Contractor.

GCC 42.2 Except where otherwise specifically provided in the Contract, the Contractor shall submit to the Engineer In-Charge a notice in writing of a claim for an extension of the Time for Completion, together with particulars of the event or circumstance
justifying such extension within twenty-eight (28) days of the commencement of such event or circumstance. Within twenty-eight (28) days after receipt of such notice and supporting particulars of the claim, KHEL shall agree upon the fair and reasonable period of extension.

GCC 42.3 The Contractor shall at all times use its reasonable efforts to minimize any delay in the performance of its obligations under the Contract.

GCC 42.4 In no case the extension in Time for Completion will be permitted for the defaults on the part of the Contractor.

GCC 43 Price Adjustment

GCC 43.1 The Contract Price shall be adjusted for increase or decrease in rates and prices of labour and materials if the Contract duration is more than 18 (Eighteen) months.

GCC 43.2 The Price adjustment shall apply for the work done from the start date upto the initial intended completion date or extensions granted by the Engineer In-Charge and shall not apply to the work carried out beyond the stipulated time for reasons attributable to the Contractor.

GCC 43.3 The Price adjustment shall be determined during each quarter by using the formula given below.

Adjustment for variation of material prices:

\[ V = W \times 0.80 \times 0.75 \times \frac{(M - M_0)}{M_0} \]

Where:

\( V \) = amount of variation for materials payable to/recoverable from the contractor for the period under review;

\( W \) = value of the work done during the period under review minus \( [(\text{amount of secured advance recovered in the same period}) + (\text{value of works executed under variations for which the variations are paid in the new rate})] \);

\( M_0 \) = Material Index for the month in which the tender was submitted.

\( M \) = the average value of the above Index Number for the 3 months period under review;

Adjustment for variation in labour wages:

\[ V = W \times 0.80 \times 0.25 \times \frac{(L - L_0)}{L_0} \]

\( V \) = amount of variation for Labour payable to/recoverable from the contractor for the period under review;

\( W \) = value of the work done during the period under review minus (amount of secured advance recovered in the same period + value of works executed under variations for which price adjustments will be worked separately based on terms mutually agreed between the Project Engineer and the Contractor);

\( L_0 \) = Labour Index for the month in which the tender was submitted;
L = the average value of the above Index Number for the three (3) months period under review;

GCC 43.4 For the applications of the above formulae, the appropriate Index Numbers published by the source indicated in the SCC shall be adopted.

GCC 43.5 To the extent that full compensation for any rise or fall in costs to the contractor is not covered by the provisions of this or other clauses in the contract, the unit rates and prices included in the contract shall be deemed to include amounts to cover the contingency of such other rise or fall in costs.

GCC 44 Suspension

GCC 44.1 The Engineer In-Charge at any time may, by notice to the Contractor, order the Contractor to suspend performance of any or all of its obligations under the Contract. Such notice shall specify the obligation of which performance is to be suspended, the effective date of the suspension and the reasons thereof. The Contractor shall thereupon suspend performance of such obligation (except those obligations necessary for the care or preservation of the Works against any deterioration, loss or damage) until ordered in writing to resume such performance by the Engineer In-Charge.

GCC 44.2 If, by virtue of a suspension order given by the Engineer In-Charge, other than by reason of the Contractor's default or breach of the Contract, the Contractor's performance of any of its obligations is suspended for an aggregate period of more than ninety (90) days, then at any time thereafter and provided that at that time such performance is still suspended, the Contractor may give a notice to the Engineer In-Charge requiring that KHEL shall, within twenty-eight (28) days of receipt of the notice, order the resumption of such performance or request and subsequently order a Change in the Works in accordance with GCC 40, excluding the performance of the suspended obligations from the Contract.

GCC 44.3 If KHEL fails to do so within such period, the Contractor may, by a further notice to the Engineer In-Charge, elect to treat the suspension, where it affects only a part of the Works, as a deletion of such part of the Works in accordance with GCC 40 or, where it affects the whole of the Works, as termination of the Contract under GCC 45.1.

GCC 44.4 If the Contractor is unable to carry out any of its obligations under the Contract for any reason attributable to KHEL, including but not limited to KHEL's failure to provide possession of or access to the Site or other areas in accordance with GCC 13.2, or failure to obtain any governmental permit necessary for the execution and/or completion of the Works or failure to make any due payment even after a period of sixty (60) days from the due date; then the Contractor may by fourteen (14) days’ notice to KHEL suspend performance of all or any of its obligations under the Contract, or reduce the rate of progress.

GCC 44.5 After the permission or instruction to proceed is given by the Engineer In-Charge, the Contractor and the Engineer In-Charge shall jointly examine the Works and the plant and materials affected by the suspension. The Contractor shall make good any deterioration or defect in or loss of the Works or plant or materials, which has occurred during the suspension.
GCC 44.6 If the Contractor’s performance of its obligations is suspended for a cumulative period of more than twenty-eight (28) days or the rate of progress is reduced pursuant to this clause GCC 44.6, then the Time for Completion shall be extended in accordance with GCC 42.1 equivalent to the period of suspension plus twenty-five percent (25%) thereof, and any and all additional costs or expenses incurred by the Contractor as a result of such suspension or reduction shall be paid by KHEL, as considered reasonable, to the Contractor in addition to the Contract Price, except in the case of suspension order or reduction in the rate of progress by reason of the Contractor’s faulty workmanship or materials or of the Contractor’s failure to protect, store or secure the Works in accordance with GCC 44.1 or any other default or breach of the Contract.

GCC 44.7 During the period of suspension, the Contractor shall not remove from the Site any plant, equipment, material or any part of the Works or any Contractor’s Equipment, without the prior written consent of KHEL.

GCC 45 Termination
GCC 45.1 Termination for KHEL’s Convenience
GCC 45.1.1 KHEL may at any time decide to terminate the Contract, in whole or in part, for any reason whatsoever by giving the Contractor a copy to the Engineer In-Charge a twenty-eight (28) days prior notice of termination that refers to this clause GCC 45.1.1. The Contractor shall have no claim to any payment of compensation or otherwise whatsoever on account of any profit or advantage which might have been derived from the execution of the Works in full but which he did not derive in consequence of the said termination of the whole or part of the Works.

GCC 45.1.2 Upon receipt of the notice of termination under GCC 45.1.1, the Contractor shall either immediately or upon the date specified in the notice of termination

a. cease all further work, except for such work as KHEL may specify in the notice of termination for the sole purpose of protecting that part of the Works already executed, or any work required to leave the Site in a clean and safe condition;

b. terminate all subcontracts, except those to be assigned to KHEL pursuant to paragraph (d)(ii) below;

c. remove all Contractor’s Equipment from the Site, repatriate the Contractor’s and its Subcontractors’ personnel from the Site, remove from the Site any wreckage, rubbish and debris of any kind, and leave the whole of the Site in a clean and safe condition;

d. In addition, the Contractor, subject to the payment specified in GCC 45.1.3, shall

i. deliver to KHEL the parts of the Works executed by the Contractor up to the date of termination;

ii. to the extent legally possible, assign to KHEL all right, title and benefit of the Contractor to the Works and to the plant, equipment or material as at the date of termination, and, as may be required by KHEL, in any subcontracts concluded between the Contractor and its Subcontractors;
iii. deliver to KHEL all non-proprietary drawings, specifications and other documents prepared by the Contractor or its Subcontractors as at the date of termination in connection with the Works.

GCC 45.1.3 In the event of termination of the Contract under GCC 45.1, KHEL shall pay to the Contractor the following amounts:

a. the Contract Price, properly attributable to the parts of the Works executed by the Contractor as of the date of termination,

b. costs incurred by the Contractor in protecting the Works and leaving the Site in a clean and safe condition pursuant to paragraph (a) of GCC 45.1.2.

GCC 45.1.4 The Contractor shall, if required by the Engineer In-Charge furnish to him wage books, time sheets and other relevant documents as may be reasonably necessary to enable him to certify the reasonableness of the amount payable under this clause.

GCC 45.1.5 After the termination has taken effect under this clause KHEL shall promptly return the contract performance security to the Contractor.

GCC 45.2 Termination for Contractor’s Default

GCC 45.2.1 KHEL, without prejudice to any other rights or remedies it may possess, may terminate the Contract forthwith in any of the following circumstances by giving a fourteen (14) days prior notice of termination with a copy to the Engineer In-Charge and its reasons thereof to the Contractor, referring to this clause GCC 45.2.1; if the Contractor:

a. becomes bankrupt or insolvent or goes into liquidation, has a receiving order issued against it, compounds with its creditors, or, if the Contractor is a corporation, a resolution is passed or order is made for its winding up (other than a voluntary liquidation for the purposes of amalgamation or reconstruction), a receiver is appointed over any part of its undertaking or assets, or if the Contractor takes or suffers any other analogous action in consequence of debt

b. assigns or transfers or sub-contracts (engagement of labour on piece work basis shall not be deemed to be sub-contracting) the Contract in whole or in part or any right or interest therein or attempts to assign, transfer or sub-contract in violation of the provision of GCC 46.

c. in the opinion of KHEL, has engaged in fraud or corruption, as defined in GCC 4 in competing for or in executing the Contract.

d. has abandoned the Works or otherwise plainly demonstrates its intention not to continue performance of his obligations under the Contract.

e. has without valid reason failed to commence the Works pursuant to a notice given by the Engineer In-Charge to commence the Works under GCC 11 or has suspended (other than pursuant to GCC 42.2) the progress of Contract performance for more than twenty-eight (28) days after receiving a written instruction from KHEL to proceed.

f. persistently fails to execute the Contract in accordance with the Contract or persistently neglects to carry out its obligations under the Contract.
without just cause and does not make good such failure or neglect within reasonable period even after a written notice by the Engineer In-Charge.

g. refuses or is unable to provide sufficient materials, services or labour to execute and complete the Works in the manner specified in the program furnished under GCC 25.2 at rates of progress that give reasonable assurance to KHEL that the Contractor can attain completion of the Works by the Time for Completion as extended.

h. the liquidated damages to be levied in terms of the provisions under GCC 33 has reached a maximum of ten percent (10%) of the Contract Price and it appears to the Engineer In-Charge that the Contractor is unable to complete the Works.

GCC 45.2.2

Upon receipt of the notice of termination under GCC 45.2.1, the Contractor shall, either immediately or upon such date as is specified in the notice of termination,

a. cease all further work, except for such work as KHEL may specify in the notice of termination for the sole purpose of protecting that part of the Works already executed, or any work required to leave the Site in a clean and safe condition.

b. terminate all subcontracts, except those to be assigned to KHEL pursuant to paragraph (d) below.

c. deliver to KHEL the parts of the Works executed by the Contractor up to the date of termination.

d. to the extent legally possible, assign to KHEL all right, title and benefit of the Contractor to the Works as at the date of termination, and, as may be required by KHEL, in any subcontracts concluded between the Contractor and its Subcontractors.

e. deliver to KHEL all non-proprietary drawings, specifications and other documents prepared by the Contractor or its Subcontractors as at the date of termination in connection with the Works.

GCC 45.2.3

KHEL may enter upon the Site, expel the Contractor, and complete the Works itself or by employing any third party at the risk and cost of the Contractor. The Contractor shall not be allowed to remove any materials, plant and temporary works from the Site until the matter is amicably resolved. KHEL or any third party may then use the Contractor’s materials, equipment, and design documents for completing the Works. KHEL may, to the exclusion of any right of the Contractor over the same, take over and use Contractor’s Equipment with the payment of a fair rental rate to the Contractor, with all the maintenance costs to the account of KHEL and with an indemnification by KHEL for all liability including damage or injury to persons arising out of KHEL’s use of such equipment, owned by the Contractor and on the Site in connection with the Works for such reasonable period as KHEL considers expedient for the completion of the Works.

Upon completion of the Works or at such earlier date as KHEL thinks appropriate, KHEL shall give notice to the Contractor that such Contractor’s Equipment will be returned to the Contractor at or near the Site and shall return such Contractor’s Equipment to the Contractor in accordance with such notice. Any sums due to KHEL from the Contractor accruing prior to the date of termination shall be deducted from the amount to be paid to the Contractor under this Contract. If KHEL is not able to recover its dues from the Contractor, KHEL may recover this due from the Performance Security pursuant to (a) (b).

GCC 45.2.5 If KHEL completes the Works, the cost of completing the Works by KHEL till the completion of Defect Liability Period shall be determined.

If the sum that the Contractor is entitled to be paid, pursuant to GCC 45.2.4, plus the reasonable costs incurred by KHEL in completing the Works, exceeds the Contract Price, the Contractor shall be liable for such excess.

If such excess is greater than the sums due to the Contractor under GCC 45.2.4, the Contractor shall pay the balance to KHEL and in case of non-payment by contractor KHEL may en-cash the Bank Guarantee available to that extent, and if such excess is less than the sums due to the Contractor under GCC 45.2.4, KHEL shall pay the balance to the Contractor.

b. terminate all subcontracts, except those to be assigned to KHEL pursuant to paragraph (d)(ii) below

c. remove all Contractor's Equipment from the Site and repatriate the Contractor's and its Subcontractor's personnel from the Site

d. In addition, the Contractor, subject to the payment specified in GCC 45.2.4, shall

i. deliver to KHEL the parts of the Works executed by the Contractor up to the date of termination

ii. to the extent legally possible, assign to KHEL all right, title and benefit of the Contractor to the Works and to the plant, equipment or materials as of the date of termination, and, as may be required by KHEL, in any subcontracts concluded between the Contractor and its Subcontractors

iii. Deliver to KHEL all non-proprietary drawings, specifications and other documents prepared by the Contractor or its Subcontractors as of the date of termination in connection with the Works.

GCC 45.3.3 If the Contract is terminated under GCC 45.3.1, KHEL shall pay to the Contractor all payments specified in GCC 45.1.3.

SECTION VI – TECHNICAL SPECIFICATIONS
1 BACKGROUND

The Kholongchhu Hydroelectric Project (600 MW) during its main construction phase need very good project access road for smooth vehicular movement for transportation of large construction materials and heavy construction equipment. Therefore the project access roads have been already constructed and completed in 2017 - 2018. These roads shall be handed over to the main contractor along with main package works in good shape and in a state which is accessible to traffic flow. The project access road is of WBM standard built as per the Specifications for Building & Roadworks published by Department of Engineering Services (DES), Ministry of Works & Human Settlement (MoWHS).

2 OBJECTIVE OF THE WORK

The construction of various project roads to different components of the projects with a total length of 32 km is completed and being maintained by KHEL currently. Since the roads cutting works were done through fresh cutting in steep hill slopes and are facing the initial years of monsoon, it is required to maintain it to offset the monsoon and other vagaries of nature. The clogging of the road side drains by the slides, and rain water from the drains getting diverted along the carriage width of the road will directly affect the life of the project roads. The life and the condition of the road is directly dependent on the timely maintenance of the road and the road side drains. Further, the unchecked vegetative growths if allowed along the road width will also directly aid to degeneration of the road condition and life span of the road way.

In order to keep these projects roads in good condition prior to handing it over to the main contractors of the project, it is proposed to have about 1 worker per km of road on daily wage basis along with a tipper and machineries as and when required.

3 SCOPE OF WORK

To ensure that project access road is kept open for 24 hours facilitating smooth, comfortable and uninterrupted flow of traffic to the project site, KHEL intend to hire both man and machine to maintain the access roads. These roads are also being used by the local public and thus, in the upliftment of the local economy.

The labours required for normal road maintenance shall be arranged by the contractor. The labourers shall be responsible for cleaning the road from the minor slips, slides and the road side drains. The labourers shall be equipped with tools like sickles, spades and shovels for cleaning the road from the minor slides/debris/road side drain from the minor slips, slides and the road side drains. The contractor shall provide the manpower with all the tools required for carrying out these cleaning works. In addition, the labourers shall also keep the road sides cleared of bushes and vegetative growths within 15 m corridor on either side of the centreline of the road.

The manpower shall be responsible for clearing any slips/slides on road and drains not exceeding 1 m³ at any location. Any slips/slides beyond this quantity shall be cleared mechanically.
A tipper is required for transport of debris / muck from the slip clearances to the designated dump yards. The cost for transportation of manpower shall not be paid separately except for the items covered in the BoQ. The contractor shall club such incidental cost with other cost.

4 WORKS TO BE CARRIED OUT BY MACHINES AND MANPOWER

The road stretches covered under this scope of work is prone to heavy landslides from the hill side and other vagaries of nature. The excavator, among others will be deployed to excavate, remove the slips and load debris / muck onto the truck(s). A tipper is required to transport debris / muck from the slip clearances to the designated dump yards and to carry out any other incidental works being assigned by the Employer. The manpower / laour shall be engaged in corridor clearance, pothole repair, maintenance of drains and other cross drainage road furniture.

Since the slides/slips on and within the road side can happen at any time of the day and year, the contractor shall make their machines available on short notice call

5 DURATION OF THE CONTRACT.

The duration of the contract period is six (6) months and during this period, the Contractor shall deploy full resources as required in BoQ and complete the whole stretch of work in stipulated time. However, if required KHEL may extend the contract period with same terms and conditions for a reasonable time to complete the work. The decision taken by KHEL shall be final and binding on the contractor.
